FOR IMMEDIATE RELEASE

R 20th CENTURY GALLERY AND TURPAN ANNOUNCE COLLABORATION IN EAST HAMPTON

*New Gallery Space, R/TURPAN will Merge Vintage and Artist-Made
Contemporary Design with Iconic and Timeless Objects for the
Home*

NEW YORK, NY - R 20th Century and TURPAN are merging their lauded curatorial visions in a unique East Hampton gallery space opening early this summer. R/Turpan brings together, for the first time, R's exceptional vintage and artist-made contemporary design with TURPAN's iconic and timeless objects, jewelry and accessories for the home. The gallery is located at 14 Main Street, East Hampton, NY.

Longtime admirers of one another's aesthetic, R 20th Century's Zesty Meyers and Evan Snyderman and Greg and Katherine Turpan were inspired to collaborate on offering clients a sophisticated, well-edited narrative about living with this full spectrum of great design. In their intimate space on Main Street they will present stunning exhibitions and vignettes; open houses, gallery talks and exclusive events with the designers will take place throughout the summer.

The idea for a shared gallery germinated over conversations between R and TURPAN about how residents in the Hamptons are putting a refined and focused energy into the architecture and interiors of their homes and curating world-class art and design collections in private residences. Hamptons residents themselves, the principals of both galleries wanted to bring their distinctive level of presentation and superb selection of objects closer to the international community out East. The relaxed pace of life in East Hampton offers a unique opportunity to spend time discussing leading contemporary designers and classic icons from America, Brazil, Europe and Korea with the owners of these two internationally renowned design destinations.

The gallery is open by appointment starting Saturday, May 29th. To visit, please call TURPAN at 631-324-2444.

ABOUT R 20TH CENTURY GALLERY

Launched in 1997 by Zesty Meyers and Evan Snyderman, R 20th Century represents a distinguished international group of vintage and contemporary designers whose work is among the most important, innovative and finely crafted of their time. During the past decade, its founders have built an impressive archive, library, collection and roster of artists. With their exhibition gallery and showroom at 82 Franklin Street, in New York City's Tribeca

neighborhood, promotion of the work of R 20th designers internationally and active presence in publications and lectures, Meyers and Snyderman are at the forefront of the international design conversation. www.r20thcentury.com

ABOUT TURPAN

Greg and Katherine Turpan are the founders and owners of TURPAN in East Hampton and Los Angeles. Their stores feature an incredibly well-curated mix of exceptional high-to-low pieces. Every object that they sell, from a nail-brush to a mouthblown Italian vase, is an example of great American or European design. Many pieces they present ambush all expectations of what the phrase "great design" means, while confirming or expanding the definition.
